### **DETAILED ACTION**

1. Claims 1-48 are pending in this application.

### ***Response to Arguments***

2. Applicant's arguments filed 09/25/03 have been fully considered but they are not persuasive.

The applicant argues "Bolnick does not disclose a "filter tree table" recited in independence claims 1, 15, 25 and 37"

The examiner respectfully disagrees with the above argument because the "filter tree table" is not well define in the claim limitation. The "filter tree table" is just filter according to the broadest interpretation that allowed.

The applicant also argues "Bolnick does not disclose a parametric filter or an unfiltered data table."

The examiner respectfully disagrees with the above argument a parametric filter is not in the claims. The claims only states filter tree table. Secondly, the "unfilter data table" is a set of desktop items in an image plane (col. 26, lines 63-65).

Please see the same argument for 2-14, 16-24, 26-36 and 38-48.

### ***Conclusion***
